

**Notations of the seminar "Superslow Processes". N.3.  
Volgograd: Izd-vo VolGU. 2008.**

**Contents**

1. E.G. Kryukova, I.V. Volodchenkov, Application of filtration theory to identification of the stopping time of random process of market price walk. P. 7-14.
2. V.A. Gorelkin, Military Propaganda of Nazi Germany at II World War. P. 15-19.
3. A.S. Skripkin, Authenticity of Historical Reconstructions at Archaeology. P. 20-29.
4. V.M. Miklyukov, On Harnack inequality for almost solutions of elliptic equations. P. 30-43.
5. A.A. Klyachin, Search engines optimization of a site. P. 44-45.
6. A.N. Kondrashov, The Beltrami Equation of Alternating Type. P. 46-59.
7. E.G. Grigorieva, Sobolev inequality by Finsler mesure. P. 60-64.
8. P.P. Kolpakov, V.M. Miklyukov, On a property of the M.A. Lavrentiev relative distance. P. 65-67.
9. V.A. Klyachin, On variational approach to construct some mathematical model of computer graphics. P. 68-75.
10. V.M. Miklyukov, M.A.Lavrentiev relative distance on anisotropic surfaces. P. 76-101.
11. A.A. Klyachin, On convergence of approximate solution minimal surface equation. P. 102-105.
12. A.Yu. Igumnov, On tetrahedron systems satisfying Delone of empty ball condition. P. 106-116.
13. V.M. Miklyukov, Ovchinnikov Relative Distance on Abstract Surfaces. P. 117-145.
14. V.V. Tarakanov, 'Owner's University': experience and perspectives of development. P. 146-156.
15. E.A. Gracheva, V.A. Klyachin, On interpolation of level sets for functions defined on irregular grids. P. 157-167.
